

Call for Papers – Special Session

Social Networks and Mobile Applications for Health care (SNMAH)

Overview

In the last decade advances in wireless technology led to the emergence of a wide range of applications in healthcare, mobile health care, social networking, etc.

Among these applications, health care, mobile health and smart health are considered the most promising and most important, this is mainly due to their positive impact on the quality of life of patients.

Furthermore, mobile health care technology helps improve the quality of care administered to patients providing clinical and critical care in ways that help them follow-up their disease. Therefore, patients can be treated and cared for from anywhere, at any time. In addition mobility helps patients track their recovery with remote monitoring tools and follow what doctors prescribed.

Thus we can conclude that this area of research is very interesting and this is why we intend to propose this special session in order to gather researchers in the field of mobile health care, give them the opportunity to share their ideas and conceptual approaches and finally discuss the recent advances in this field.

We invite researchers, developers and all those working in this area to submit work under the following topics:

Topics

1. *Social Media and Mobile Technologies for Health care*
2. *Internet of things and health care applications*
3. *Mobile health care applications*
4. *Health and Big Data Analytics*
5. *Machine Learning in Medical Care*
6. *Deep learning in Medical Care*
7. *Mobile Portals and Telemedicine*
8. *Social network for health care.*

IMCL2019

"Internet of Things, Infrastructures and Mobile Applications"

Mediterranean Palace Hotel, Thessaloniki, Greece, 31 October – 1 November 2019

Program Committee

Chair(s)

Akhrouf Samir, University of Mohamed Boudiaf Msila, Algeria, samir.akrouf@gmail.com

Members

Boubetra Abdelhak	University of Bordj Bou Arreridj, Algeria, boubetraabd@yahoo.fr
Morad Benyoucef	Telfer School of Management University of Ottawa, Canada, benyoucef@telfer.uottawa.ca
Harous Saad	United Arab University Al Ain, UAE, harous@uaeu.ac.ae
Farid Meziane	University of Salford Manchester, UK, f.meziane@salford.ac.uk
Farid Nouioua	University of Bordj Bou Arreridj, Algeria, farid.nouioua@gmail.com
Zsóka Zoltán	Budapest University of Technology and Economics, Hungary, zsoka@hit.bme.hu
Maameri Ramdane	University of Constantine 2, Algeria, rmaamri@yahoo.fr
Chahir Youssef	University of Caen, France, youssef.chahir@unicaen.fr
Billami Azeddine	University of Batna 2 Algeria, bilamiaz@gmail.com
Zitouni Abdelhafid	University of Constantine 2, Algeria, ah_zitouni@yahoo.fr
Sedrati Maamar	University of Batna 2, Algeria, msedrati@gmail.com
Barkat Hadj	University of Bordj Bou Arreridj, Algeria, hadj.barkat@gmail.com

Important Dates

08 Jul 2019	Submission of: (i) complete papers for all submission types (ii) Round Table Proposals (iii) Proposals for Organization of a Panel Discussion (iv) Proposals for Organization of a Workshop/Tutorial
29 Jul 2019	Notification of acceptance
06 Sep 2019	Camera-ready due & Author registration deadline
31 Oct 2019	IMCL2019 Conference Opening
