November 19th-21st 2024

2024 INTERNATIONAL CONFERENCE ON INFORMATION AND COMMUNICATION TECHNOLOGIES FOR DISASTER MANAGEMENT

CALL FOR PAPERS

ICT-DM 2024, November 19th–21st 2024, Setif 1 University, Algeria

Technically supported by IEEE and IEEE ComSoc. All accepted papers will be published in IEEE Xplore Proceeding of the conference will be indexed by Web of Science and Scopus Authors of selected best papers will be invited to submit an extended version to special issues of prestigious journals

Information and Communications Technologies (ICT) have revolutionized the way we communicate with each other in today's world. While regular communications are supported irrespective of the geographical locations of various participants, the strength of the ICT infrastructure in a particular location is also very crucial in cases of both man-made and natural disasters. made and natural disasters. ICT-DM 2024 in its 9th edition aims to bring together academics and practitioners to learn about the latest research developments, share their experiences and information about this area in general and develop recommendations. Authors are invited to submit manuscripts that present original unpublished research on using ICT for detection, prevention, preparation, response and recovery during disaster situations. ICT-DM 2024 conference will provide a supporting forum for encouraging researchers who are involved in pragmatic applications in this domain.

Submission Deadline April 30th, 2024 May 31st, 2024 **Acceptance Notification** July 30th, 2024 **Camera-Ready** August 21st, 2024 Registration August 21st, 2024

Track 1: IoT and Wireless Communications for Disaster Management Track 2: Networks and Distributed Systems Applications for Disaster Management Track 3: Risk Assessment and Cyber Security Approaches for Disaster Management Track 4: Beyond 5G and Towards 6G applications for Disaster Management Track 5: AI/ML and Big Data Analytics for Disaster Management Track 6: Crowdsourcing and Social Media for Disaster Management
